IGASHI MICHAEL

FULL STACK SOFTWARE ENGINEER

PROFILE

Self-taught frontend developer with a Diploma in Backend Engineering from AltSchool Africa. Experienced in building full-stack applications with React, Next.js, Node.js, and MongoDB. Proven ability to solve complex software challenges and enhance team productivity through collaborative projects.

PROJECT EXPERIENCE

ALTSCHOOL AFRICA

TUTOR

2023

- Committed 2 hours weekly to doing a follow-up tutorial for my fellow Altschoolers.
- Achievements: This experience helped me improve my communication skills and reinforced my understanding of backend engineering technologies

ALTSCHOOL AFRICA

Restaurant Chat Bot

2024

- Built a real-time chatbot with Express and Socket.io, efficiently handling user interactions and automated responses.
- Tech Stack: HTML, CSS, Express, Socket.io.
- Achievements: Overcame data storage limitations with an in-memory database, reducing response latency and enhancing user experience.

ALTSCHOOL AFRICA

URL shortener

2024

- Developed an API that creates a short version of a long URL, that can be easily shared with friends or for official purpose
- Tech Stack: Nodejs, Express, Nestjs, MongoDB.
- Achievements: Implemented NestJS architecture principles, contributing to application scalability and performance optimization.

PERSONAL PROJECT

Country display website

2023

- Designed a responsive React-based website with Tailwind CSS and TypeScript to display country and continent information from a REST API.
- Tech Stack: React, tailwind CSS, Typescript, Rest country API.
- Achievements: Displayed complex data structures like embedded arrays and objects from the backend.

HOBBIES

- Playing computer and video games.
- Learning and experimenting with new technology
