- Native Language (Fluent)

PROFILE

I am a self-taught frontend developer who further learned backend engineering with AltSchool Africa. A fast learner with a keen interest in solving challenging problems paying good attention to details. I look forward to applying my resilient spirit to solving software problems in your company as a software engineer.

WORK EXPERIENCE

ALTSCHOOL AFRICA

TUTOR

2023

- Dedicated 2 hours weekly to doing a follow-up tutorial for my fellow Altschoolers.
- This experience helped me improve my communication skills and reinforced my understanding of backend engineering topics.

ALTSCHOOL AFRICA

Restaurant Chat Bot

2024

- Created a chatbot built with Express and Socket.io to handle real-time user interaction.
- Tech Stack: HTML, CSS, Express, Socket.io.
- Challenges: Overcame data storage limitations by implementing an in-memory database with arrays.

ALTSCHOOL AFRICA

URL shortener

2024

- Develop an API that creates a short version of a long URL, that can be easily shared with friends or for official purpose
- Tech Stack: Nodejs, Express, Nestjs, MongoDB.
- Challenges: learnt and understood Nestjs architecture.

PERSONAL PROJECT

Country display website

2023

- A mobile responsive website that allows you to see various countries and continents in the world. You could search for a country by name or use a filter section to filter by continent.
- Tech Stack:: React, tailwind CSS, Typescript, Rest country API.
- Challenges: Displayed complex data structures like embedded arrays and objects from the backend.

HOBBIES

- Playing computer and video games.
- Learning and experimenting with new technology
